## 12 Reasons to Choose Ewa Full Premix Condensing Boiler

### Up to 97,5% ( $\eta_1$ ) High Efficiency with Electronic Gas Adaptive System

Ewa, with Full Premix System with Electronic Gas Adaptive feature, instantly senses gas quality and keeps combustion quality constant. It uses all the energy of gas and provides savings.

### In the Lowest NOX Class for Exhaust Gas According to the ErP Directives

Lowers environmentally hazardous NOX emissions even below the values determined by the best class level of 6 for NOX as an appendix of the Energy-related Products Directive (56 mg/kWh), to 20 mg/kWh in order to reduce air pollution.

### A Energy Class

Ewa Boilers are fully compatible with European Union ErP Directives; they save on both gas and electric energy. Ewa ErP Boilers have A class energy label.

## High Savings with 1/7 and 1/10 Modulation

Varying across different models, the wide modulation ranges from 1/7 to 1/10 can decrease the power down to 3.5 kW, thus adjusting its capacity according to your requirements to provide you savings in both gas and electric energy.

## Easy to Use Push-Button Panel

Thanks to the illuminated digital 2" LCD screen and 6 push button control panel, it provides easy usage with modern and stylish appearance.

## XL Comfort of Hot Water in Double Tap ( $\eta_4$ : 88%)

Thanks to its specially designed heat exchanger, Ewa combi boilers allow you to use double taps simultaneously with high hot water capacity up to 10.6/12.7 l/min ( $\Delta T=35^\circ\text{C}$ ).

## Long Life Stainless Steel Heat Exchangers

It has a long service life as a result of its wide channels, weldless, singlecoil stainless steel combustion heat exchanger and stainless steel domestic water heat exchanger.

## Corrosion and Abrasion Resistant Brass Hydroblock

With its brass hydro-block parts resistant to; thermal stress, abrasion and corrosion, it has a long service life and offers years of trouble-free use.

## Continuous Ready Hot Water with Pre-Heat

With the pre-heating selection in your boiler, the domestic water in the plate heat exchanger is kept hot at all times and the hot water waiting time is minimized.

## Compact Size

Ewa ErP series combi boilers with their compact size can be easily installed to even confined spaces and can be used in all living spaces.

## Low Heat Loss and Quiet Operation (52 dB)

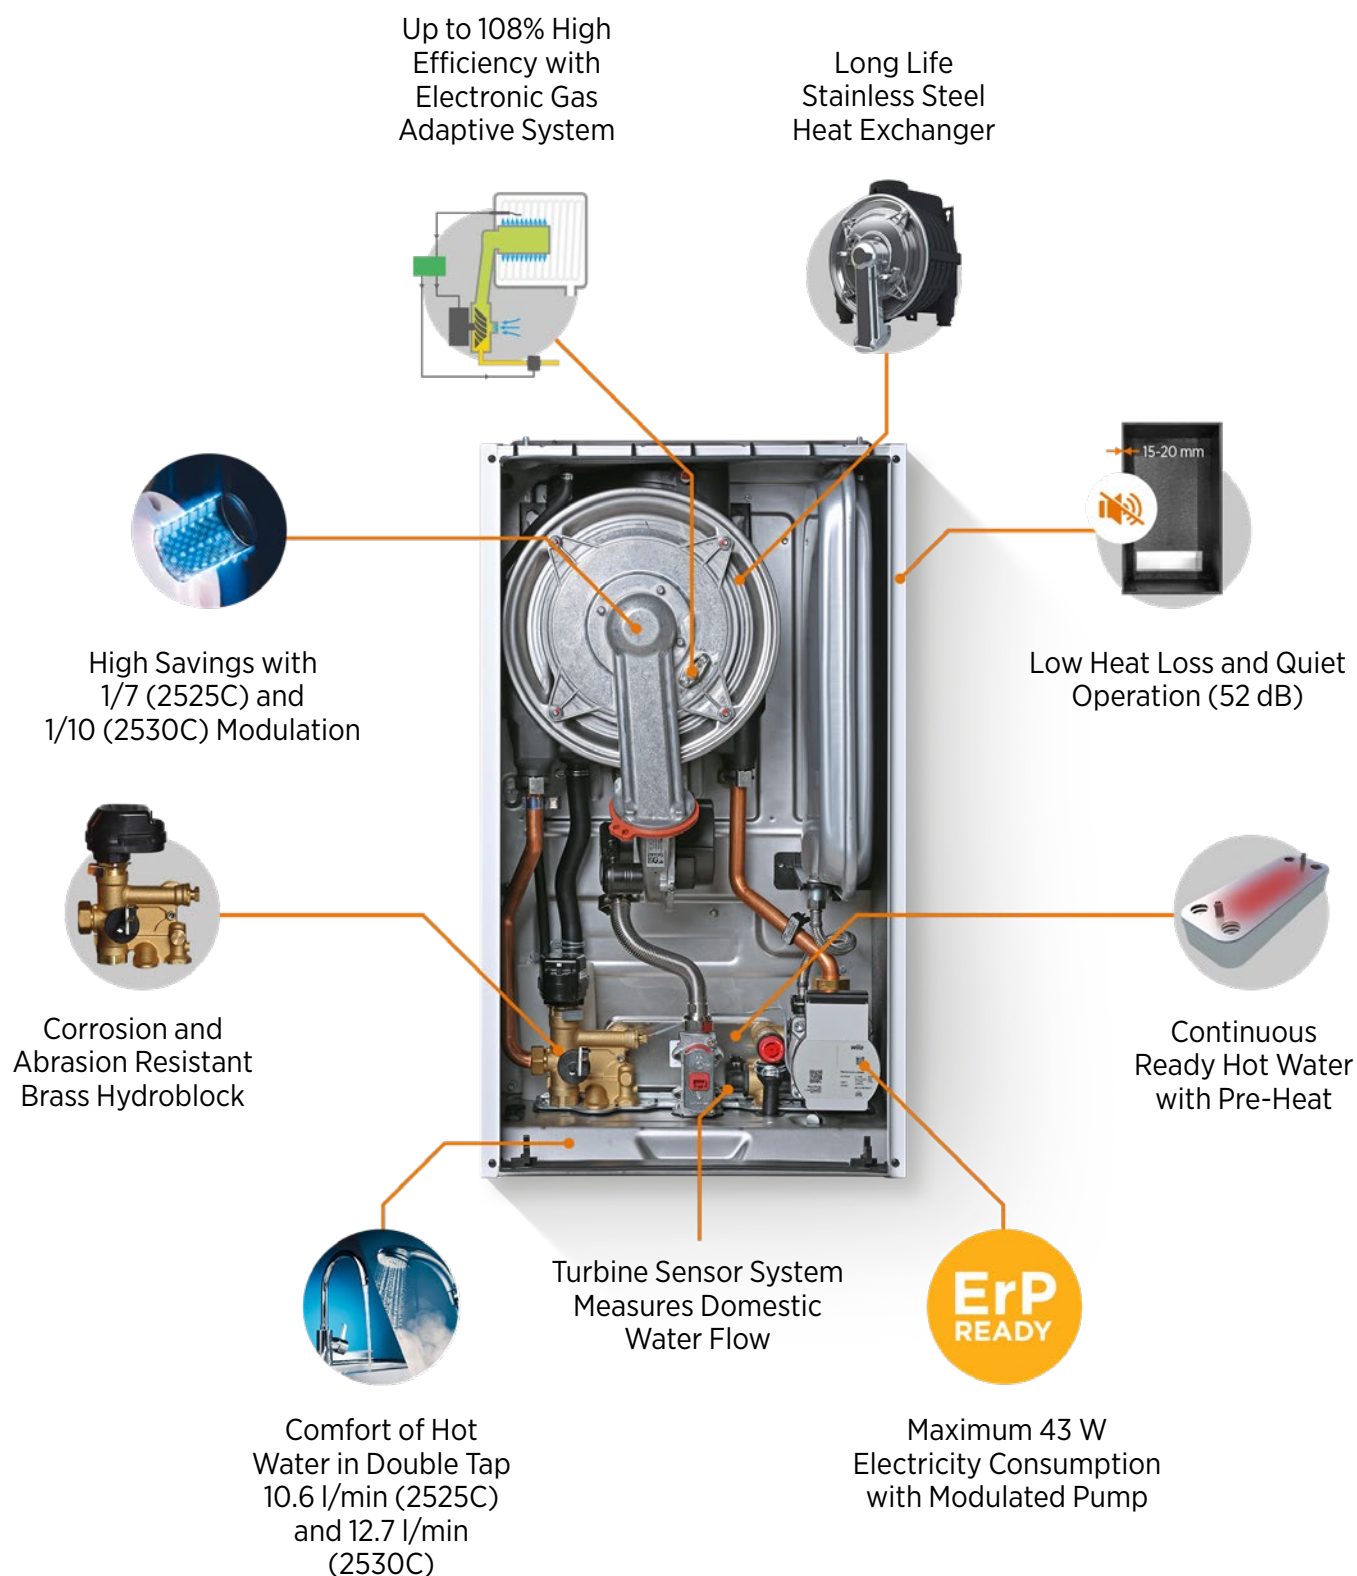

The insulation, that prevent heat loss from the boiler body, enables the end-user to experience maximum efficiency as well as decreasing the noise level.

## Peace of Mind Guaranteed

Every Warmhaus boiler is guaranteed for up to 7 years.\*\*

# What is inside the Boiler?

# What is Full Premix Gas Adaptive System?

The electronic card, which senses the gas quality instantly with the signal received from the electrode, maintains the combustion quality continuously thanks to Full Premix System which controls the modulated fan and gas valve synchronously. Full Premix System ensures that the gas used is burned with the most ideal mixture and maximum utilization of all its energy.

# What is the Difference of ErP Boiler?

- ▶ Circulation pumps of ErP condensing boilers combined with frequency converter can adjust the speed of the pump in line with your heating system. It reduces electric energy consumption up to %50.
- ▶ ErP condensing boilers are in accordance with EU directives and they have lower energy consumption.
- ▶ ErP compatible products are labeled according to their energy classes. You can understand how economically more efficient your boiler is from the label on your product.

## Room Thermostats (Optional)

### Weekly Programmable Control Panels With Room Thermostats and Outdoor Air Temperature Sensor

With a modulated room thermostat remote control panel and outdoor air temperature sensor that works in coordination (both units are optional), you can install a comfortable and modulating automatic heating system that offers weekly programming, and temperature adjustment according to room temperature.

## Outside Sensor (Optional)

You can set the heating flow temperature automatically according to the outside temperature.

**WT-07**

Cabled digital room thermostat with modulation and 4 buttons  
Product Code: 15311800000027

**WT-01**

Cabled digital room thermostat with modulation and 10 buttons  
Product Code: 15311800000021

**WT-RF02**

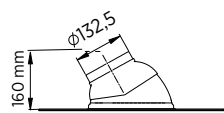

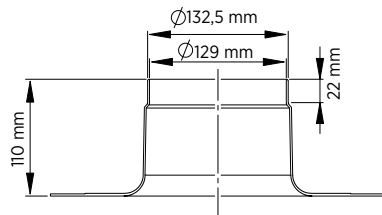

Wireless digital room thermostat with modulation and 10 buttons  
Product Code: 15311800000022

**WDHS-01**

Cabled Outdoor Air Temperature Sensor  
Product Code: 15311660600001

# Flue Systems For Condensing Boilers (Optional)

	Product Name	Product Code

Sound Level	db	52		52	

(1) Low temperature means for condensing boilers 30 °C, for low temperature boilers 37 °C and for other heaters 50 °C return temperature (at heater inlet).

(2) High temperature regime means 60 °C return temperature at heater inlet and 80 °C feed temperature at heater outlet.

## About Warmhaus

Warmhaus, is an affiliate of Beyçelik Holding which produces domestic boilers, commercial boilers, and steel panel radiators with experience in HVAC industry since 1996.

**Warmhaus is amongst the top 10 radiator producers in the world and the top 4 in Turkey and Warmhaus products heat one of every seven houses in Turkey, and many in more than +55 countries.**

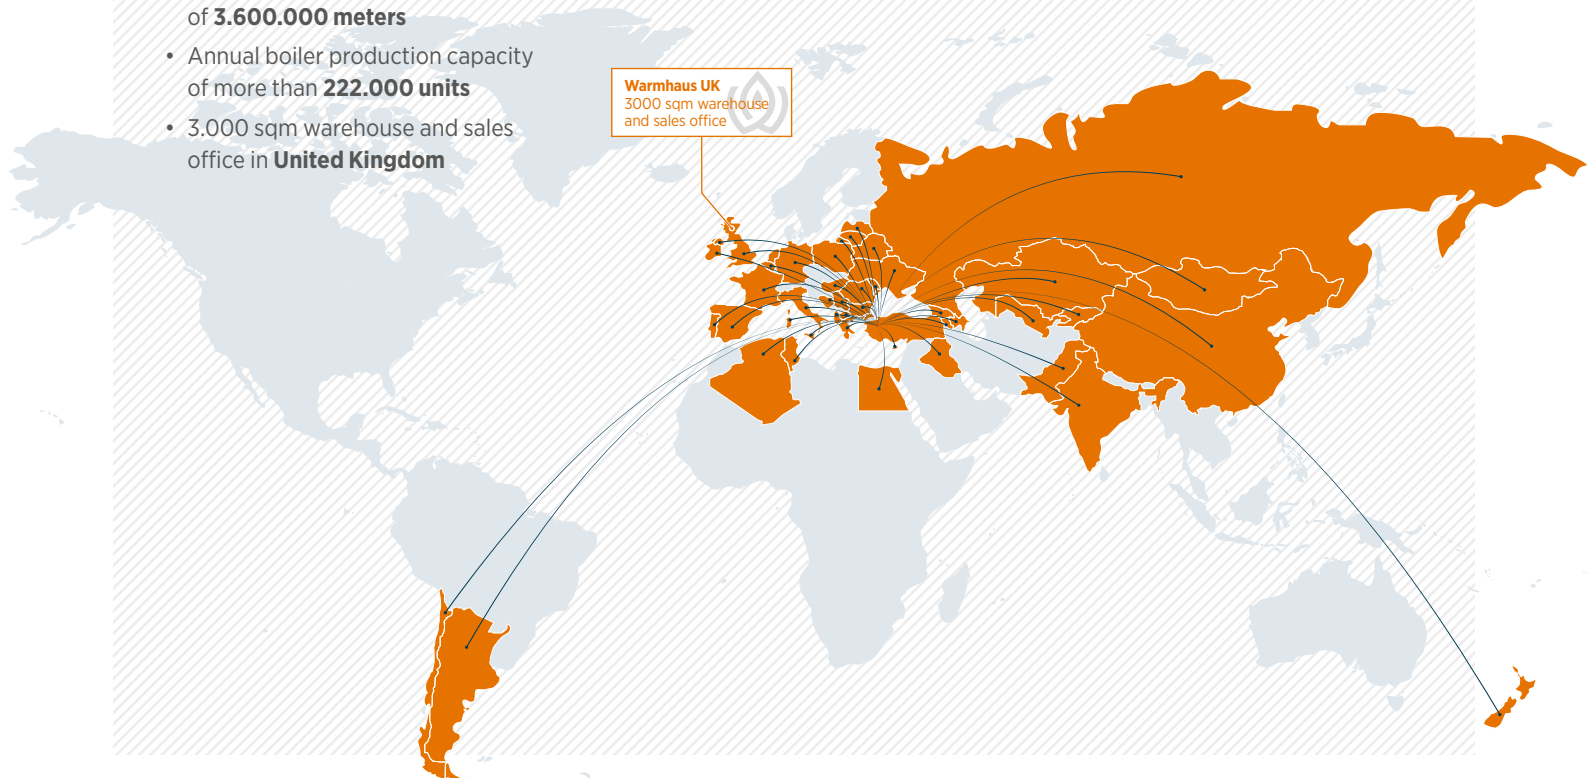

## Global Heating Brand

Products developed by Warmhaus R&D center are shipped all over the world.

- Totally **41.000 sqm** panel radiator production and boiler production facilities
- Exports to more than **+50 countries**
- Annual total production capacity of **3.600.000 meters**
- Annual boiler production capacity of more than **222.000 units**
- 3.000 sqm warehouse and sales office in **United Kingdom**

# Our Offers

## WARMHAUS APPLICATIONS OUR DIGITAL WORLD

### Warmhaus Partner

Install and Earn Points Now

Warmhaus installers receive loyalty points after each operating boiler and earn their reward with their loyalty points!

### Warmhaus Consumer

Available Soon

Customers can reach Warmhaus Customers can reach Warmhaus through their mobile phone application anytime.

## Warmhaus Technical Training

We support our business partners with comprehensive trainings and technical documentation.  
Please visit our website.

## Warmhaus Production Facility

Our products are certified and tested by the international institutions to meet the highest industry standards.  
Please ask for certificate for your region.
